# ISO 9001:2015 Internal Auditor Training

## Course Overview

This 3-day training program is designed to equip participants with the knowledge and skills needed to plan, conduct, and report internal audits for an ISO 9001:2015 Quality Management System (QMS). It combines theory, practical exercises, and simulations to ensure auditors can effectively assess compliance and drive continual improvement.

## Learning Outcomes

- Understand ISO 9001:2015 requirements.
- Plan, conduct, and report internal audits effectively.
- Identify nonconformities and recommend corrective actions.
- Contribute to continual improvement of the QMS.

## Daily Agenda

Day 1: Introduction to ISO 9001 & Audit Fundamentals

Day 2: Audit Process & Techniques

Day 3: Practical Auditing & Certification

## Certification & Benefits

Participants will receive an IQ-OHS certificate upon successful completion of the training. This course helps internal auditors strengthen their audit skills and contribute to their organization's quality objectives.
